

## CVI120B3E

COMPACT LINEA WINE CELLAR  
RIGHT-HAND HINGE (REVERSIBLE)

MADE IN ITALY

Since 1948

### 20 BOTTLE CAPACITY

Storage of up to 20 Bordeaux (750ml) bottles. Perfectly shaped housings provide ample storage for different shaped bottles. Champagne and magnums can be stored horizontally without risk of sliding.

### E-MOTION ELECTRONIC OPENING SYSTEM

Equipped with a semi-automatic door opening system, making opening operation easy even when holding bottles. To activate, press at the top of the door against the opening direction. The door will open a few centimetres to grasp and open completely. If not opened, the door will close automatically after a few seconds.

### UV RESISTANT GLASS

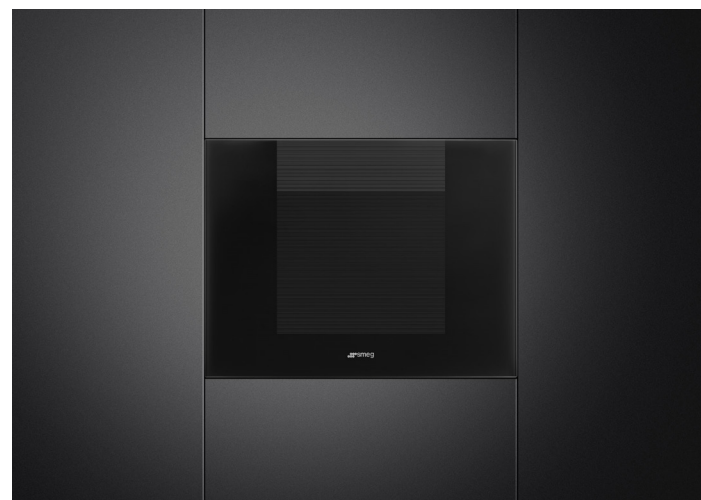

Solar light and UV rays can alter a wine's structure, ruining its balance and flattening its scent. Layered glass panels in Smeg's built-in wine cellars protect wine from damaging light whilst providing maximum transparency.

### VIBRATION PROTECTION

Smeg wine cellars are equipped with an ultra-quiet cooling system which keeps vibrations down to a minimum. Even the smallest vibrations can affect wine by lifting sediments. This causes different components to mix, altering the balance developed during the ageing period.

### SLIDING BEECH WOOD RACKS

Telescopic sliding beech wood shelves allow for easy placement, storage and removal. The smooth movement prevents disturbance of wine sediment. Highly durable, beech wood also naturally absorbs and releases moisture, helping to maintain an optimal humidity level in the cellar.

#### WINE CELLAR FEATURES

EAN	8017709356415
Dimensions	596mmW x 457mmH x 560mmD
Cut Out	560-570mmW x 450mmH x 550mmD
Finish	Black
Capacity	20 bottles (750ml Bordeaux style)
Door	UV resistant glass door Default right-hand hinge, reversible E-Motion door opening system
Shelves	2 x removable shelves on telescopic guide rails
Display	LED with internal touch control
