

PRODUCT HIGHLIGHTS

HIGH POWER MOTOR

1,400 watt motor with smooth start – begins slowly to reduce sudden bursts and accelerates smoothly to reach the selected speed. The BLC02 has sufficient power to blend anything, from green smoothies, frozen desserts to warm soups.

LCD DISPLAY

The built-in display shows the selected speed but can also act as a timer. Count-up in manual mode or count-down when one of the pre-set programs is selected.

VACUUM PUMP

This included accessory sucks out air from the jug, creating extra smooth blends. You'll notice your blends are not only smoother but also brighter and packed with more flavour. Excellent for smoothies, dips and soups.

BPA-FREE TRITAN™ JUG

Lightweight, super-strong and dishwasher-safe Tritan™ jug with non-drip spout.

BLC02

High Performance Blender
