- 1 x 58mm stainless steel tamper
- 1 x 450ml stainless steel milk jug

## PRODUCT HIGHLIGHTS

### 58MM PORTAFILTER

Like your local barista, use a professional 58mm stainless steel portafilter to create a full-flavoured coffee. Single and dual wall filters can be interchanged for the best experience.

### DUAL THERMOBLOCK SYSTEM

Fast heat-up time - 90 seconds from switching on. Fast temperature adjustment from coffee (94°C) to steam (100°C) in just 3 seconds.

### 20 BAR PUMP

Choose from 4 low pressure pre-infusion profiles and extract the perfect espresso at 9 Bar. All via a 20 bar pump. All of this combined, and you can create a full-flavoured aromatic espresso.

### AUTO DOSE

With the push of a button, the removable conical burr grinder with auto dose quietly grinds the ideal amount of coffee.

### STAINLESS STEEL STEAM WAND

Easily texture your milk with the single point stainless steel steam wand and utilise two different steam intensities to achieve your desired level of microfoam.
